

Proyecto Access

Science & Technology Entry Program

About Hostos STEP

Proyecto access is a year-round program originally funded by NASA (The National Aeronautics and Space Administration) at Hostos Community College. The main objective is to increase the number of minority graduates in STEM majors.

Currently, the program is sponsored by the New York State education Department, serving more than 282 high achieving underrepresented/ economically-disadvantaged secondary school students with the potential to become engineers or scientist.

The program offers enrichment courses to middle and high school students in science, technology, engineering, and mathematics. In addition, students work on different engineering projects including the tower project, the bridge project, and a robotics competition with a potential to participate in the annual step statewide student conference.

H.E.R.O High School & STEP

In collaboration with HERO high school, Hostos STEP is offering courses in computer science & technical skill development along with an Algebra review class for HERO Students.

H.E.R.O HIGH SCHOOL			
	10 am - 11 am	11:30 AM - 12:30 PM	1pm - 2:30 pm
H-1	Computer Science & Technical Skills	Algebra	Tutoring
H-2	Algebra Regents Review	Computer Science & Technical Skills	Tutoring
